**We will provide PCR testing, a necessary service for daily life during the COVID-19 pandemic, in partnership with Idogojusantsugi Clinic. In response to domestic travel such as returning home for end of the year travel and rising demand for overseas travel, the service will start sequentially this fall.**

Vision Inc. (headquarters: Shinjuku-ku, Tokyo, President & CEO: Kenichi Sano, hereafter “Vision”), which is engaged in the GLOBAL WiFi business and the Information and Communications Service business, together with the Idogojusantsugi Clinic Medical Corporation (Shinagawa-ku, Tokyo, President: Koichi Aida, Chief Physician: Yasunari Kageyama, hereafter “Idogojusantsugi Clinic”), has started providing a PCR testing service, which is an essential part of social infrastructure for the life during and after COVID-19.

We plan to provide the following services in the future.

In addition, as an initiative unique to Vision, as travel demand increases nearing the end of the year, we will provide PCR tests to customers who are returning to their hometowns and issue the necessary negative PCR test certificates for customers of the Wi-Fi router rental service “GLOBAL WiFi” as they travel overseas.

Each service will be launched sequentially as soon as it is ready.

● **Overview of the PCR Testing Services provided by Vision and Idogojusantsugi Clinic**

1. Negative certificate issuance service for GLOBAL WiFi users (overseas travelers) (testing and certificate issuance necessary for overseas travel)
2. Testing service aimed at domestic travelers (returning to one’s hometown, business, etc.)
3. Mail-in testing service.
4. Mail-in testing service for corporations.
5. Same-day reservations available at a convenient location near the terminal station.
6. Home delivery service available (only in the 23 wards of Tokyo), test and receive the results without ever leaving the house.

● **Features of the PCR Testing Services provided by Vision and Idogojusantsugi Clinic**

1. The service smoothly guides you through testing, results, and issuance of negative certificates.
2. A testing service that combines the know-how of service operations and marketing of Vision with the PCR testing of Idogojusantsugi Clinic, a medical institution.
3. Highly reliable inspection by real time PCR method
4. Notification of results on the same day at the earliest. If not on the same day, results are given on the next day as a rule.

## ● **Background of the PCR Testing Service**

Since the start of the COVID-19 pandemic, it has become necessary to use PCR testing to determine risk in everyday life, and to show a negative test result when travelling abroad.

Vision has a large number of existing customers for our overseas Wi-Fi router rental service “GLOBAL WiFi”, our corporate information and communications service business, and other travel-related services. Considering that such social infrastructure services are needed for many people in their social lives, we have decided to provide PCR testing services by utilizing our expertise in service provision, location management, and backroom operations such as the delivery of goods.

As a medical institution, the Idogojusantsugi Clinic was one of the first to provide PCR tests in the private sector, and as a clinic specializing in infectious disease control, it has diagnosed many COVID-19 infections based on PCR test results. They have strong experience with PCR testing, and through this partnership, we will be able to provide more people with safe and reliable test results.

Through the partnership, we will establish a system to receive testing and result certifications quickly and inexpensively, and build a highly convenient service that can be used as the social infrastructure during and after the COVID-19 pandemic.
