

## FY2022-2Q Financial Summary Video

Acquire various usage needs and earn revenues through various initiatives for living with COVID-19.

Vision Inc. Kenichi Sano President, Founder & CEO

The company reported net sales of 11,628 million yen, gross profit of 5,454 million yen, operating income of 921 million yen, ordinary income of 922 million yen, and net income attributable to owners of the parent of 566 million yen for the second quarter of the fiscal year ending December 31, 2022.

A factor contributing to the increase or decrease in operating income includes the Global WiFi business performing well due to the acquisition of various domestic usage needs and the use of “Global WiFi for Biz,” a permanent stand-by WiFi service for corporate customers to telework. We also continued to be commissioned by airport quarantine offices to perform application verification services as part of border control operations (order started in mid-March 2021 and continued in 2Q of 2022).

Information and Communication Services business increased due to strengthened sales of merchandising products (mobile communication devices, office automation equipment, etc.). The space management business (rental service of meeting rooms and telework spaces) increased due to the acquisition of Adval Corp. President Sano will give further details.
